CPF Work-in-Progress on Eudora Welty

The Eudora Welty Society invites short papers that present a section of, or otherwise introduce, your current Welty work-in-progress. Make your case and perhaps also place it among thoughts about what is needed in Welty Studies in the 21st Century. We hope to hear about books underway, articles forming, and dissertations being proposed.

We might request a double session, depending on the number of responses to this CFP. Please send preliminary news of your interest in writing for it now to Harriet Pollack, pollack@bucknell.edu, and please follow with 250 word proposals by Dec. 15, 2016.
