

Call for Papers  
American Literature Association Annual Conference  
May 23-26, 2019  
Boston, MA

The William Carlos Williams Society invites proposals for its two sponsored panels at the upcoming ALA Conference

1)  
Teaching William Carlos Williams

This call invites teachers and scholars to share their experience of teaching Williams and his work in the classroom. The panel will be a round-table discussion featuring 5-6 speakers each of whom would present a short paper (8-10 minutes) as a springboard for a general interactive discussion. The aim is that this panel will form the basis for a subsequent publication on this topic.

2)  
William Carlos Williams and the Medical Profession, Past and Present.

As part of a projected special issue of the *Williams Review* journal focusing on this topic, papers are sought that assess the relationship between Williams and the medical profession, both of his own day and in the present. Suggested aspects include (but are not limited to): Williams's reception among current medical practitioners; research on Williams's own medical training; the relationship between Williams's medical background and his aesthetics.
